

TECHNOLOGY

Alabama Christian Academy is committed to student use of technology as a tool to expand learning opportunities and conduct scholarly research. The use of technology facilitates global collaboration-- a vital skill for our 21st century learners. School devices are strictly for educational use consistent with the educational goals of ACA. Along with the opportunity this provides comes responsibility. ACA employs an Acceptable Use Policy (AUP) that is designed to give students and their families clear and concise guidelines regarding the appropriate use of technology devices while enrolled as a student at ACA. The underlying premise of this policy is that all members of the ACA community must uphold the values of honesty and integrity. The proper use of technology reflects the strength of one's character, as does one's behavior. We expect our students to exercise good judgment and to utilize technology with integrity.
